

SPEEDY SCRAMBLE

- All 4 players hit off the 1st tee (or starting hole) only.
- The best drive is selected and all second shots are played from that ball's position.
- The catch is that the person whose ball is selected does not hit a second shot from that location. In other words, only 3 second shots will be hit from that location.
- The same thing applies with the third shot. The player whose shot is selected after the second shot does not hit the third. Instead, the player who sat out the second shot is now back in the game.
- Each time the player whose shot is selected he/she will not hit the next shot.
- The only place that 4 balls are hit is on the first hole. The same holds true for putting. Whoever holes out does not drive on the next tee.
